

# Aurora European University Alliance Programme to start

**The Aurora Alliance is a group of nine universities dedicated to matching academic excellence with societal relevance and impact.**

It has been selected as one of the 41 European University initiatives under the Erasmus+ programme to lead the way to European universities and university education that contribute to a Europe of prosperity and well-being.

The Aurora Alliance has grown from the Aurora Universities Network. Originally formed in 2016, Aurora is a consortium of research-intensive universities deeply committed to the social impact of our activities, and with a history of engagement with our communities.

The University of Aberdeen and the University of Grenoble Alpes are not part of the Aurora Alliance programme, but will be involved as much as possible.
